To: R.E.S.P.E.C.T.

Thank you so much for coming to our school and presenting to our faculty and students on the issue of Bullying. I consider us blessed because of your presence with us last week. I can't remember the number of times I have caught myself reflecting back to some particular scene in one of the plays. You kept me spell bound and I know the students were drawn in as well.

The materials you gave to us for the teachers and students are wonderful. The 6th grade teacher and I were talking and realized afterwards that the SCRAPS play may have been good for the 6th grade to see, but we made the decision beforehand. I did tell her that if issues arise, especially with the girls, we have a resource to use now.

As I mentioned to the teachers, the presentations by your group are a part of the puzzle, and that we must remain ever vigilant as teachers to bullying among our students.

Thank you again for providing us with such excellent presentations and tools for our 'educators tool belt'.

God bless you all,

Sister Mary Ann Tupy
